What to fix first

Images must have alternative text

CRITICAL 39 elements · www.w3.org/WAI/demos/bad/before/news.html

Affected: `img[src$="border_left_top.gif"]` `img[src$="border_top.gif"]` `img[src$="border_right_top.gif"]`

Suggested fix: Add an alt attribute to every `<img>`. Describe what the image communicates in context; use `alt=""` for purely decorative images.

```

```

Select element must have an accessible name

CRITICAL 1 element · www.w3.org/WAI/demos/bad/before/news.html

Affected: `select`

Suggested fix: Give every `<select>` a label.

```
<label for="size">Size</label>
<select id="size">...</select>
```

Links must have discernible text

SERIOUS 4 elements · www.w3.org/WAI/demos/bad/before/news.html

Affected: `#home > a[onfocus="blur();"]` `#news > a[onfocus="blur();"]` `#tickets > a[onfocus="blur();"]`

Suggested fix: Give every link discernible text. For icon-only links, add an `aria-label` or visually hidden text.

```
<a href="/cart" aria-label="Shopping cart"><svg aria-hidden="true">...</svg></a>
```

All touch targets must be 24px large, or leave sufficient space

SERIOUS 2 elements · www.w3.org/WAI/demos/bad/before/news.html

Affected: `.inaccessible > .report[href$="news.html"]` `.accessible > .report[href$="news.html"]`

Suggested fix: Make touch targets at least 24 by 24 CSS pixels, or space smaller targets so a 24px circle around each does not overlap another.

```
.icon-link { min-width: 24px; min-height: 24px; padding: 4px; }
```

<html> element must have a lang attribute

SERIOUS 1 element · www.w3.org/WAI/demos/bad/before/news.html

Affected: `html`

Suggested fix: Add a lang attribute to the html element.

```
<html lang="en">
```

Automated accessibility scan. Results are informational and may not identify every accessibility issue. This service is not legal advice, a compliance certification, or a substitute for comprehensive manual accessibility testing.

Suggested fixes are general guidance based on the rule that failed; confirm each change in context.
